

DEMOCRATS HOLD FIRST SESSIONS AT SAN FRANCISCO

National Committee
Meets to Make up
Temporary Bill

SEN. REED
ON SCENE

SAN FRANCISCO, June 25.—The Democratic national committee today unanimously agreed to send a telegram to the governor of Tennessee urging a special session of the legislature to ratify the federal suffrage amendment.

The committee met late today to make up the temporary roll of delegates, to consider contests and to dispose of other business preliminary to the opening of the convention. Homer S. Cummings, chairman, presided. Probably the largest number of women that ever attended a meeting of the committee was present. Among the early arrivals was Senator James A. Reed, who claimed a seat in the convention as a delegate from the Fifth Missouri district. Representatives of the two groups of delegates contesting for Georgia's twenty-eight seats were also on hand.

There was vigorous applause when Chairman Cummings suggested sending a telegram to Governor Roberts of Tennessee, urging him to call a special session to the legislature to ratify the federal suffrage amendment. The suggestion was unanimously adopted.

Minutes on the death of Roger Sullivan, Illinois; John McGraw, West Virginia and William J. Stone, Missouri, were adopted by a rising vote.

The committee approved the executive committee's report of temporary officers of the convention which recommended that Homer S. Cummings be the temporary chairman of the convention. A pleasant incident at the meeting was the presentation of a gold badge to John I. Martin, of Missouri, honorary sergeant-at-arms of the national committee. There was a buzz thru the committee room when Francis M. Wilson, United States district attorney for the western district of Missouri, presented the certified action of the "Democracy of the Fifth Missouri district" in electing Senator Reed a delegate. He asked an opportunity to present the facts and was informed he would be heard at the proper time. It is understood the seating of Senator Reed would be considered by a sub-committee.

On the suggestion of Committee member I. B. Dockweiler, California, the convention will be asked that when it adjourns on Monday it be until one o'clock Tuesday afternoon in order to permit the visiting delegations to take a steamer excursion Tuesday morning.

The committee adopted without discussion a resolution to be submitted to the national convention providing that hereafter each state and territory be represented in the national committee by one man and one woman. The resolution also provided that the woman committee member be selected according to state laws or party rules where no state law covers the election of national committee members. The resolution also provided that the woman committee member to serve the next four years be selected by the state delegation to the present convention if the resolution is adopted.

When the question of approving the temporary roll came up it was announced that several states were not their full delegation and the question of how the vacancies shall be filled. After a general discussion, a motion was made by Thomas B. Howe, Texas, authorizing state delegations to fill vacancies. The motion was tabled after several committee members said their delegations would fill vacancies to suit themselves. New Hampshire and Delaware were among the states that had delegates absent. J. Bruce Emerson, Montana vice-chairman of the committee, moved that contests be heard by subcommittees of five appointed by the chair.

E. H. Moore of Ohio, moved a substitute that the contests be heard by the full committee in executive session and was adopted by a vote of twenty-six yeas and twenty nays.

The committee after a brief discussion, placed on the temporary roll the names of two delegates and two alternates from the Panama Zone. This was the canal zone representation in a Democratic national convention for the first time if the delegates are seated by the credentials committee.

In the case of John L. Schulyman, who protested against the seating of R. R. Turner as a delegate-at-large from Oregon, the committee decided to seat Turner. Turner was selected a delegate-at-large by the Oregon state committee to fill the vacancy caused by the death of G. W. Baldwin. Schulyman appeared before the committee and argued that he should fill the vacancy on the ground that he received the fifth highest vote in the race

DEMOCRATIC WOMEN SUBMIT PLANKS TO PLATFORM BUILDERS

Declare Against Making
Any Mention of Prohibition
Question

SAN FRANCISCO, June 25.—The women members of the executive committee of the Democratic national committee today decided to recommend that no reference be made to the prohibition question in the platform to be adopted. It was also agreed to recommend that President Wilson stand on the peace treaty and league of nations be approved.

The following planks submitted by the labor committee of the women's bureau of the Democratic national committee were adopted:

"We affirm the right of collective bargaining between employees and employers thru representatives of their choosing. We approve also the national industrial councils established by employers and employees within the various industries, the findings of which shall have the effect of ordinary collective agreements but not of judicial decisions.

"We insist on the abolition of the labor of children under 14 years and that children between 14 and 18 shall be permitted to work only after passing examinations by local school and health authorities.

"We reaffirm our belief in the principles of the Democratic platform of 1916 and again urge the general adoption of the eight hour day.

"We believe wages should be put on the basis of service, not of sex and that minimum wages should be fixed to insure a proper standard of health, comfort and efficiency.

"We urge that the federal trade commission be given greater power over the basic food industries.

"We advocate a national system of employment offices under control of federal and state boards. To meet the problems of seasonal requirements of agriculture we urge a voluntary labor corps for harvesting, with transportation subsidies.

"We advocate the extension and development of the bureau of women in industry in the department of labor. We also urge the appointment of women on all government boards dealing with industry and labor.

"We recommend the protection of womanhood and infancy according to the best modern experience.

A resolution urging a department of education, under a cabinet officer, was also adopted.

LABOR BOARD WILL MAKE DECISION BEFORE JULY 20

Award Will be Retro-
active to May
First

ALL STRIKE
DANGER ENDED

CHICAGO, June 25.—A decision on the demands of railroad employees of wage increase will be made on or before July 20 by the railway labor board, Judge R. M. Barton, chairman, said in a statement late today. The award would be retroactive to May 1, the statement said.

According to W. G. Lee, president of the Brotherhood of Railroad Trainmen and spokesman for union leaders who gathered here today, the board's declaration would end all danger of a general railroad strike.

Mr. Lee said that secret plans had been made by a disaffected union element to spread the strike thruout the country because of the continued delay in announcing the decision. "We would have quit at midnight tomorrow night," he said. "It was impossible to hold them longer. Men of my organization have been waiting patiently for nearly a year."

The railway board's statement declared that an agreement on a method of working out the wage problems has been arrived at and that no time would be lost in reaching a conclusion.

Lee and other representatives of the recognized railroad brotherhoods who met here today to discuss the situation, said there was no doubt the men would be satisfied with the promise of a decision to relieve their impatience.

In a later statement Mr. Lee declared that "even the most conservative members of the organizations have been bitterly complaining of the delays and insist upon a decision."

"Now that it has been definitely decided the award will be handed down not later than July 20," the statement continues, "we urge our members to continue to carry out their obligations to their organizations and the contract relations with the employees as the most effective means of helping the situation."

General chairman of the 15 recognized labor organization will meet in Chicago July 29 to consider and pass upon the awards by the board, it was announced.

Shea Makes Statement
"We came here to prevent a strike and at the same time to obtain full satisfaction for our men," said Timothy Shea, president of the Brotherhood of Locomotive Firemen, in commenting on the board's announcement.

"We have held our men back for three months, ever since the outlay strikes began. We have lost 60,000 men by revoking charters of unions which called walkouts. We could not hold the others another week, if the board had not promised us to announce its decision in the near future. I am confident the men that they will get a wage increase dating from May 1 and not later than July will do much to prevent a general strike."

"But the board would have done much better to have promised a decision before July 1. Three weeks and a half is a long time to wait in the present impatient temper of men."

Resolutions reiterating statements of the Chicago Yardenmen's association, that its labor difficulties in the railroad industry are due to the inefficiency of the old line railroad brotherhoods.

"But for the inefficiency of the men at the head of the railroad brotherhoods the difficulties between the men and the roads would have been settled within two weeks," he declared.

Macley Hoyne, state's attorney, was invited to speak "as a representative of the public." He expressed his willingness to help in any mediation move which might be brought.

Francis Patrick Boland of New York, who was chairman of a committee of the "railroad vacationists" which recently went to Washington to plead their case before federal officials, also spoke.

Officials Comment
Washington, June 25.—Announcement by the railroad labor board in Chicago today that its award in the pending wage controversy would be given on or before July 20 is expected both by government officials and railway union heads to exercise a powerful influence in alleviating unrest among the workers. Setting of a definite date was received with undisguised satisfaction.

friction by union heads, who were plainly worried by the sporadic strikes in Baltimore, Philadelphia and other eastern centers. They said that not only could the announcement be expected to prevent the spread of the walk-out but it would undoubtedly tend to bring about the return of workers now out.

WILSON MACHINE WILL BE IN CONTROL OF CONVENTION

Anti-Administration
Forces Lack Leadership

BRYAN'S FIGHT
SEEMS USELESS

SAN FRANCISCO, June 25.—So far as surface indications were concerned, at least, the friends of President Wilson and his policies appeared in complete control of the political machinery of the Democratic party today as the actual preliminaries of the national convention began.

Their domination was not without its complement of grumbling and complaints among scattering insurgent elements, but there was every evidence that on a showdown the anti-administration forces not only were far in the minority but were lacking in organization and leadership.

The ascendancy of the Wilson supporters showed itself in striking fashion in the program for the national committee to decide between contesting delegates. The committee met with the stage set for a ruling calculated to keep out of the convention plank Senator Reed of Missouri and former Senator Hardwick of Georgia, two of the bitterest critics of the Wilson policies.

Another development pointing in the same direction was the apparent collapse of a fight against Senator Glass of Virginia in his candidacy for chairman of the resolution committee, a post which he is commonly reported to have been selected by the president himself.

In addition there was accumulating evidence that William Jennings Bryan would find the cards against him in his attempt to put into the platform a league of nations plank in disagreement with the resolution of the convention plank. Bryan's enforcement plank, adopted without the acquiescence of the administration, with regard to prohibition, however, the situation remained in a state of considerable uncertainty with the trend apparently toward exclusion of the subject from the platform entirely. Those who want a liberal plank continued an active campaign and some members of the New York delegation declared they would carry the fight to the floor of the convention itself, but a feeling gained headway that in the end both Mr. Bryan's bare declaration and that of the anti-bone dries would be voted down.

Just where President Wilson stands on that subject has not been made clear but increasing significance was attached to Bryan's conference to the absence of any reference to prohibition in the Virginia Democratic platform unofficially endorsed by the white house. Neither has the administration tipped its hand in regard to presidential candidates and tonight the relative standing of aspirants remained apparently unchanged.

Attorney General Palmer arrived today to take personal charge of his campaign and by tomorrow the gunning of candidates and their managers among the uninstructed delegates is expected to be at its height.

BENEDICT CROWELL QUITS AS ASSISTANT SECRETARY OF WAR

Will Leave Department July
1 to Enter Private
Business

WASHINGTON, June 25.—Benedict Crowell, assistant secretary of war has resigned, effective July 1. He plans to enter private business.

The resignation has been accepted by President Wilson. Mr. Crowell, whose home is in Cleveland, entered the army as major of ordnance and was assigned to duty in connection with the creation of facilities for the manufacture of arms. Later as assistant secretary of war, he was given practically complete charge of the munitions program. Since the armistice, he has directed industrial and military supervised settlement of war claims and contracts.

In his letter of resignation to President Wilson, Mr. Crowell expressed appreciation for the "generous support which I have constantly had from you both in my own office and as acting secretary of war when I have been called upon to act."

The president in his reply said: "It is most gratifying to know that the great business of the war department in the procurement of munitions supplies has been so satisfactorily concluded and closed up. Undoubtedly, the resumption of normal business in the country was stimulated and expedited by the speed with which the industrial and financial resources which had been mobilized for our war making were released after the armistice."

A successor to Secretary Crowell is expected to be appointed by the president within a few days.

VAUDEVILLE ACTOR ACCIDENTALLY SHOT

CHICAGO, June 25.—Joseph A. Hack of Milwaukee, a vaudeville actor appearing here was accidentally shot today by Miss Kitty Gordon, headliner on the bill. It occurred at the matinee performance while Hack was standing "off stage." The .38 caliber revolver used by Miss Gordon in the scene supposedly contained only blank cartridges.

According to the police, however, it developed that the weapon had been used off the stage by Jack Wilson, her husband, as a safeguard against the theft of his wife's jewels and that in changing the cartridges one loaded bullet was inadvertently left in the chamber.

The bullet entered Hack's right arm and passed out of his right chest. It was said the wound was serious. Miss Gordon explained the affair to the police who said they were satisfied it was accidental and that no one would be held.

ROOSEVELT AND THOMPSON CONFER WITH HARDING

Will Limit Campaign
Contributions to
\$1,000

PLAN MEETING
WITH COOLIDGE

WASHINGTON, June 25.—Conferences with Republican leaders were continued today by Senator Harding with William Boyce Thompson, chairman of the ways and means committee of the Republican national committee and Theodore Roosevelt, Jr., as conferees.

The meeting with Mr. Thompson related largely to campaign finances and Mr. Thompson announced later that on Mr. Harding's recommendation the policy inaugurated several years ago if limiting campaign contributions to \$1,000 would be followed this year.

"Thru my department," said Mr. Thompson, "there has been no contribution to the Republican national organization in excess of \$1,000, and we mean to go on with that limitation."

Mr. Roosevelt came at the senator's invitation and after the conference issued a statement endorsing Senator Harding and declaring him to be a standard bearer who would "represent and unite the entire party."

Interest was expressed here in the announcement from Boston today of the conference next Wednesday between Senator Harding and Governor Coolidge. The two are not strangers, having met several months ago when Mr. Harding was campaigning in Massachusetts.

Arrangements for the meeting were made by Chairman Hays at Senator Harding's suggestion. That an exchange of views on the campaign would be profitable. The speeches to be made by each in accepting their respective nominations probably will be discussed also.

The conference, it is understood, will be held at the senator's office at the capitol.

Mr. Harding played a round of golf today with Senator Hitchcock of Nebraska, Hale of Maine and Ellins of West Virginia. Tomorrow promises to be a quiet day for the senator.

FIND FRENCH MAPS IN OLD GLOVE

DECATUR, Ill., June 25.—Tearing apart the gauntlet of an old leather glove which he had picked up when fighting a fire at the Wabash railroad shops, H. Von Boeckman, round house employee, today found concealed therein a ground plan of the fortifications about the city of Amiens, France. The drawing was on tracing muslin and the word "Amiens" was printed on the map. In the other glove was found another map, but it was so damaged that the tracings were illegible.

Both were encased in oil cloth and sewed in between the two layers of leather which formed the gauntlet.

Von Boeckman picked the gloves up from the ground when he went to help fight the fire and no one has been able to furnish any information as to where they came from or to whom they belonged. Boeckman was led to tear the gloves apart because of their peculiar stitching.

Talking about the same old
hackneyed subject of the high
cost of living and upward prices
wouldn't it be a good thing not to
discuss the subject during the
next two months. With that plan
followed after everybody has a
good rest perhaps they'd feel bet-
ter about the whole puzzling situ-
ation.

NOT SO BAD, AFTER ALL

Government control of prices is
frequently condemned as harmful
to business and for wrong done
from an economic standpoint, but
now when you think of it the
government price for sugar wasn't
half bad by comparison with the
recent prices.

Then the fuel administration
price on coal was much less than
operators are now charging. The
wheat guaranteed price of \$2.25
sounded high but when harvest

time comes the elevators will of-
fer considerably more than that
price.

The state fire department has
issued timely warning with re-
ference to the Fourth of July. It
is the department's hope that
young people and old will use
care in celebrating this year, that
accidents and loss of property
may be avoided.

The records show that a very
large percentage of 4th of July
accidents result from careles-
ness. So the campaign of warn-
ing is well-timed and the public ap-
peals for carefulness and atten-
tion are given much more heed
than used to be the case.

TRYING TO GET THE GLORY

President Wilson, the Demo-
cratic national committee and the
party leaders are urging a special
session of the Tennessee legisla-
ture hoping for a favorable action
on the equal suffrage bill. These
same party leaders hope that the
legislature will act favorably and
thus make the amendment a part
of the constitution. In this way
they figure that the Democratic
party could carry off a lot of
glory and credit for giving the
franchise right to women.

While the party would thus
gain some advertising, hundreds
of thousands of women will not
forget the lukewarm attitude of
the party toward the suffrage
question in other years.

WHY BLAME THE FARMER

A shipment of wool will soon
move from Jacksonville to Chi-
cago, many of the Morgan county
farmers who belong to the agri-

cultural association having pool-
ed their fleeces and agreed to
place them in storage to wait for
a higher market.

In some quarters this will pro-
voke criticism on the ground that
if all the producers followed the
same plan of withholding their pro-
ducts from the market, that the
tendency of living costs could not
be any way but upward.

But who can blame the farmer
for his desire to hold the product
of his farm to such a time as he
thinks a fair price may be paid?
For years the low market price of
grain has been at harvest time.
Then after a certain percentage
of farmers have sold their grain
at the low level, the rise in prices
begins. The time when grain
and other products sell at the
highest prices is after these pro-
ducts have passed from the pos-
session of the farmers into the
hands of dealers or speculators.

When corn was being taken
from the field the price was \$1.25
a bushel at the elevator. Then in
January the prices began to as-
cend and for some weeks past the
range has been from \$1.85 to \$2
for cash corn. There are some
few farmers who reap the benefit
of this advance but in most in-
stances the grain has passed into
other hands. So this question of
withholding products for a higher
price is one with two sides to con-
sider.

WHAT SENATOR
HARDING STANDS FOR

In the coming campaign one of
the principal issues will be the at-
titudes of the candidates upon in-
dustrial questions. Among indus-
trial issues none other is more
important than that of legislation
designed to minimize the possibi-
lity of strikes and insure contin-
uous interstate transportation. Be-
cause he voted for the anti-strike
clause of the Railroad Bill, Sena-
tor Warren G. Harding, the Re-

publican nominee, is under attack.
Prior to the nomination for the
presidency a demand was made
upon him for an explanation of
his vote and he gave this unequiv-
ocal reply:

"I favored the anti-strike
clause because it applies to a
public service under govern-
mental regulation, in which Con-
gress exercises its power to limit
the return on capital invested,
fixes rates at which the public
must be served, enacts the con-
ditions under which service must
be rendered, and finally, in the an-
ti-strike clause, provides a capable
tribunal for the adjustment of
all labor grievances, so that no in-
terruption in transportation need
be apprehended. In our modern
life, all the people are dependent
on railway transportation for
food, comfort, health, security
and the necessary material for
productive activity and attending
livelihood.

"It has become a prime neces-
sity. This transportation is a pub-
lic service, and is no longer a
speculative private enterprise. It
is not competitive, except as to
quality of service; it is limited in
profit, and the investment comes
under governmental restrictions.
Expenditures are limited because
earnings are limited. All this as-
sumption in regulation is design-
ed for the public good. It is not
wholly consistent and fair, then,
that the same governmental au-
thority should prohibit the paral-
ysis of the same governmental au-
thority should prohibit the paral-
ysis of the public service, so long
as it provides a competent tribu-
nal to adjust all labor grievances
and awards to railway employees
every just consideration? I be-
lieve it not only consistent but a
distinct advance in behalf of the
public and the workmen alike.

"If the government represent-
ing all the people can not guaran-
tee transportation service under
any and all conditions, it fails ut-
terly. If that same government
can not provide just consideration
of the workmen operating the
transportation system, it fails
again. It ought and must do both.
"It is far afield from the main
question to talk about enslaving
the laboring men. Nothing is
farther from the truth. Nobody
holds such a desire, or the sem-
blance of such a thought. The
law specifically preserves to the
individual his right to quit his
employment. It provides the gov-
ernment's guaranty of just treat-
ment while he remains in the rail-
way employment. Government
itself is the lawful agent of justice.

"I do not know that such a
law will prevent railway strikes,
but I do know that it ought, and
I think the great rank and file of
railway workers ought to wel-
come it. It suggests the nation-
wide aspiration for industrial
peace with unfailing justice to all
concerned, which is in the heart
of the American millions today."

Rippling Rhymes
By Walt Mason

THE WINNERS
Have you read the helpful
stories which are printed now
and then, dishing up the dazzling
glories of the big successful
men? This one made a million
dollars, that one made a mil-
lion seeds; so the awestruck
author hollers, as he celebrates
their deeds. This one's living
in a palace, built of pink import-
ed rock, and from out a golden
chalice he consumes his private
stock. And I think it rather
funny, and I think it rather odd,
that the measure's always money,
always is the big man's wad. For
there are some four-time win-
ners you have heard of once or
twice, men who went without
their dinners when they couldn't
raise the price; and I hold them
great successes though they
never had a roll, though priva-
tions and distresses kept them
always in the hole. And I'd
rather stagger under the renown
of Edgar Poe than be burdened
with the plunder of the biggest
I know. And poor Bobbie
Burns was busted till they put
him in a crate, but I'll surely be
disgusted if you say he wasn't
great. We should cautious be in
choosing those who win and
those who fail, for the great
who's surely long may be lead-
ed down with kale.

Harold Dunlap, one of the city's

popular dance orchestras of this
city and vicinity.

Mr. Dunlap has been active in
local musical circles for some
years. He studied violin here and
at the University of Illinois.
While in the high school he was
a leading member of the high
school orchestra and at the Uni-
versity of Illinois he was active in
musical work.

Mr. Dunlap is a leader of abili-
ty and will have an orchestra
first class in every respect. He
hopes to retain the large clientele
of the Lobby orchestra and gain

THE ROTARY CLUB

It is the rule of the Rotary
club to hold its last meeting of
each month on Friday evening in-
stead of the noon hour. Accord-
ingly members of the club as-
sembled at the Pacific at 6 p. m.
Friday. It was a business session
and President Pontius called up-
on the chairmen of committees to
make reports. The principal re-
ports were made by Vincent Riley
and Judge Paul Samuel.

AT THE GRAND.

The crowds at the Grand last
night were well pleased with the
brand of entertainment given by
Kulola's Hawaiians. Today, mat-
inee and night is their last ap-
pearance in this city. The twang
of the ukelele, the songs of Ha-
waii and the native dances are all
the rage. From San Francisco,
where things Hawaiian have been
for many years they have slowly
moved to other parts of the coun-
try.

Mr. Kulola, the famous lyric
tenor from Honolulu, was a
member of the first Hawaiian
show brought to the United States
has brought his company of na-
tive Hawaiians to the Grand the-
ater two days and nights. The
Kulola's Hawaiians are present-
ing their dreamy oriental fantasy,
"The Princess of Paradise," with
a beautiful scenic production of
one of the beauty spots of the
Island. The company is compos-
ed of native singers, dancers and
instrumentalists. If you miss see-
ing the Hawaiians you will miss a
treat. Remember tonight is the
last appearance here.

Lester Cornick and Oliver Ham-
ilton have gone to Yuma, Col., to
work in the harvest fields and in-
tend to use their wages in seeing
as much of the country as possi-
ble, moving northward as the at-
tractions that way increase. They
expect to be gone till the end of
vacation.

Perry Correa, son of F. V. Cor-
rea, of East State street, expected
to start last evening for Chicago
to enter the employ of Midland
Press. He is to take a course of
instruction in the house and then
start out on the road. His many
friends will wish him all success.
Mrs. R. Reynolds of Asbury
neighborhood arrived in the city
yesterday.

AMERICAN GARDEN
IN AUSPICIOUS OPENING

Many People Visit New Amuse-
ment Place—Will Have Danc-
ing Every Night Except Sun-
day.

"Charlie" DeSilva has opened
a place in Jacksonville such as
many of its citizens have ex-
pressed a wish for. The Ameri-
can Garden furnishes a place to
dance and good music to dance
by, in the heart of the city.

Last night at the opening
there was a crowd of about five
hundred present. They filled the
garden and overflowed on State
and Morgan streets. Morgan
street had to be opened by the
police in order to permit traffic
to pass.

Goodrick's orchestra furnished
the music and will be there for
the remainder of the week, next
week Dunlap's will play. There
will be dancing every night ex-
cept Sunday, from 8 to 12.

Last evening the people were
a little timid about dancing, but
as they got used to the garden
and the newness wears off there
is not much doubt but that the
floor will be well filled.

Mr. DeSilva plans to secure
vaudeville for the garden in the
near future.

Eat with us and enjoy the
music Sunday evening.

Today and Saturday

One of the most novel attractions
of the season will be

Kulola's Hawaiians

which comes to the Grand Opera House
today and tomorrow.

The Kulolas are presenting their musical, singing, dancing and
instrumental production, "The Princess of Paradise," in which
all the native songs, dances and instrumental numbers are
played and sung as have never before been offered to the
amusement public. This company played a two weeks' en-
gagement at the Tabor Grande Theater, Denver, to record-
breaking business and will no doubt be the banner attraction
of this season here. The company not only sing the native
songs, but sing American songs as well, which is something
new for Hawaiians to do. This clever company demonstrates
that its members are equal to anything when it comes to
entertaining the public.

The picture is also out of the ordinary and is called

tacular prize fight between the American and French cham-
pions—the latter impersonated by Kid McCoy—with the
—high tense moment, during round two. The uproariously
funny fight between Fat Ed Johnson and Skinny Will Harper,
prefaced by Will's insolent shimmy-shaking in imitation of
Johnson's trembling anger.

MORE ABOUT THE FOURTH

The various committees and bodies having in hand the celebration of the nation's birthday are working in harmony and trying to provide something which will please all as far as possible. As already stated, on and about the square and at De Silva's place, opposite the court house, there will be all sorts of amusements and diversions day and evening. Then at Nichols park there will be swimming, athletic contests, and it is expected that an airplane will land there and have its starting place there also and carry passengers on short trips.

The concessionaires are having a fine lot of boats put in shape for use, and that will be another desirable feature of the day, so that all in all there should be entertainment for people of all sorts of tastes.

SATISFACTION

There is a certain enjoyment in wearing a hat, when a man knows its the correct shape for him, and fits easy. Two very important points adhered to by FRANK RYPNS Hat Store when selling hats.

CUTTING WHEAT.

Charles M. Koyns of Murrayville was a city caller yesterday.

He had recently been down to the river bottoms west of Winchester and says they are already cutting wheat there. It is rather early but the grain is likely to fall. There is considerable anxiety on that score in many quarters and for that reason there is not much desire for rain till after harvest.

Corn is generally in fair condition and if the surface is stirred well the crop will get along though a good many fields are cloddy as they were broken when rather wet.

RESIDENT OF SCOTT COUNTY PASSED AWAY

Death of Yancy Little Came Thursday After Years of Failing Health—Miss Isabel Smithson Entertains Small Company—Other News.

Winchester, June 25.—The death of Yancy Little occurred at his late home southeast of the city late Thursday night. He was the son of Elijah and Ann Little and was born July 7, 1861. The deceased had been in poor health for a number of years and his death was therefore not unexpected.

Mr. Little is survived by his wife, two daughters and one son. He was a man of excellent character and his death will mean a distinct loss to the community as well as to the family circle.

Funeral services will be conducted from the Friendship church Sunday afternoon at 2 o'clock, in charge of Rev. O. J. Conlee of White Hall. Interment will be in Winchester cemetery.

Miss Leah Cowper and Lucy Coe returned Friday from a pleasant visit with Mr. and Mrs. Chas. Cowper in Muskogee, Okla.

Miss Jean Reid of Virginia is visiting at the country home of Mr. and Mrs. O. F. Reid.

C. B. Hubbard, E. Watson, Dr. James Miner and Henry Higgins were visitors in Jacksonville Friday.

Miss Isabel Smithson entertained about sixteen young women friends at her pleasant country home Friday afternoon. The guests were enjoyed and solos by Misses Margaret Priest and Frances Couitas added much to the pleasure of the afternoon. A luncheon was served during the afternoon.

Fight the Flies that Annoy Your Stock

Your stock cannot be profit makers if they are constantly annoyed by flies and other insects. Use Fly Shake it will keep the flies away. They will not alight on any animal where the oil has been applied. For the protection of milch cows it is especially valuable. Horses protected by it will do more and better work.

Deaths

Fell.

Mrs. Margaret Fell, wife of the late A. J. Fell of Roodhouse, died suddenly at her home in Roodhouse Thursday night at 11:55.

Mr. Fell was one of the old time conductors on the western division of the Chicago & Alton, he died about two years ago.

The deceased leaves one daughter, Blanche, of Roodhouse.

Funeral services will be held in the Methodist church Sunday afternoon at 2:30 o'clock. Interment will be in Roodhouse cemetery.

MARKET FOR FAT CATTLE IMPROVES

J. E. Osborne sold in Chicago Thursday one carload of fat cattle at \$16.50 per hundred. There were 17 steers in the lot and they averaged 1550 lbs. Just a month ago these same cattle would have brought about \$12.50 on the market, so it can be seen that there has been a substantial upturn to the market in the four weeks time. The cattle were owned by Osborne and Hayes and were fed on the Osborne farm near Murrayville. They were purchased December 1 from Isaiah Whitlock, the weight averaging 1,000 lbs.

The animals were fed corn, silage and some molasses feed and made excellent gains during the period. Two months ago there was every indication that men who had fed fat cattle would lose heavily. In fact, all who sold at that time did suffer losses.

Messrs. Osborne and Hayes figure that the cattle at \$16.50 will not show a profit but that they have repaid the value of the feed.

THE PRICE OF CLOTHING.

There seems to be an impression prevalent that the price of clothing will be reduced in the fall. But it is difficult to ascertain on just what grounds the impression is based.

Linings ordered by local merchant tailors in April for fall delivery have been reduced from \$1.25 to \$1.15 per yard, it requires two yards to line a suit, here is a saving of twenty cents. But this is more than offset by the increased cost of labor and price of woolen cloth which is still maintained at its high level costing from \$1.00 to \$2.00 more per yard than formerly.

July 2 the farmers of this vicinity will ship a pooled car of wool to Chicago, where it will be stored with other wool and held for increased prices. This means that present market prices are not satisfactory to the farmer.

GOLFERS MAKE FINE PARK IMPROVEMENTS

The grading work and the road-way change in the southwest part of Nichols park constitutes a real improvement. The hill has been cut down and a swampy place filled in.

Grass has been planted and soon one part of the park which has really been a swamp in the past will be instead a fine grass plot. All this work was made possible by those interested in golf, the fund which was raised and used for the improvement purpose.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcline in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

He expects to move in about the middle of July and will have one of the most attractive establishments in the city.

A KIND OFFER.

The entertainment of Chicago children is being provided though so often people prefer girls that the poor boys are left behind. A well known lady of this city says she will undertake to chaperone any number from one to twenty if others will pay the cost of feeding the youngsters which she estimates to be a dollar a day each or fourteen dollars for the two weeks.

Any person willing to care for a boy or several will kindly confer with the society in charge and thus do a generous deed.

BRYAN EXPECTS TO SEE DRY PLANK

SAN FRANCISCO, June 25.—"I expect to see a dry plank in the Democratic platform," said William J. Bryan on his arrival here tonight. "I have no thought that a wet plank can be put into it."

He refused to comment on the report that there was widespread sentiment in favor of ignoring prohibition entirely. He added that he cared to make no statement on the league of nations covenant nor as to the candidacy of any individual.

"If the wet forces in the convention had a single vote to spare," he said, "they would force in a wet plank even though it would dissolve the Democratic party."

He said he hoped the Tennessee legislature would ratify the suffrage amendment to the constitution before the convention got under way.

RHEUMATISM'S PAINS ARE ALWAYS TREACHEROUS

Under an Excellent Time to Combat the Disease

Some cases of Rheumatism give very little trouble to their victim during the summer season, and for this reason now is a most favorable time to take a course of treatment that will reach the cause of the trouble and remove it from the system.

Otherwise, with the very first cold, damp or disagreeable day, your pains will return and gradually increase in their severity, until you will soon again be in the clutches of this relentless disease.

Why not begin at once a systematic and sensible attack on the millions of tiny germs which cause

your Rheumatism, and forever root them from the system? This is the only way to get rid of the disease, for these germs are in the blood, and cannot be reached by liniments, lotions, and other local treatment.

S. S. S. has proven a splendid remedy for Rheumatism, especially that form of the disease which comes from germs in the blood. Being such a thorough blood purifier and cleanser, it routs the germs from the blood, thus removing the cause of your Rheumatism.

S. S. S. is sold by all druggists. Write for free literature and medical advice to Chief Medical Adviser, 611 Swift Laboratory, Atlanta, Ga.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously, are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffling, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arine—that's all you need and after you have mixed it with enough boiled water to make a pint gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

Take It For What It's Worth

St. Louis, Mo., June 18.—Here's a tip. Buy your fall shoes now. You'll get 'em cheaper if you do.

This is hot from shoe manufacturers in this, the world's greatest shoe market.

Prices are lower now than they have been for many months because of a failure on the part of retail shoe dealers to buy. But in a month or two, or three, dealers will begin to enter the market again. They will begin to want shoes all at once and then up will go the prices again.

Retailers are not buying now because they can't get the money from the banks to buy with. Banks have stopped loans for speculative purposes. Instead of buying they are liquidating—selling their stock at less than they would have to pay

to replace it at present prices.

"Just one thing is causing the present low price of shoes, lack of money," said George A. Bull, vice president of the Brown Shoe company, which is shipping out daily approximately 200,000 pairs of shoes.

"The banks' new policy of refusing money for speculation is good, sound business and it will eventually prove beneficial, although now it is causing all of us to be cautious. We were all gambling. Now we find that we can't.

"The resulting lack of ready money caused the retailer to start liquidating, the jobber followed suit and we fell in line. We are selling made up stock at lower prices than we are quoting futures, although recently we announced a general decrease in prices."

PASSAVANT NURSES RECEIVE DIPLOMAS

Five Members in Graduating Class—Exercises Were of an Impressive Character—Dr. Pontius Gives Main Address.

Another chapter has been ended in the history of that noble institution, Passavant Memorial hospital and another has been begun.

Five young ladies, Misses Abigail Eddings, Helen Bergland, Sylvia McPherson, Martha McCarver, and Hildreth Howard have finished the prescribed course in the hospital training school and henceforth will be permitted to write R. N. after their names and are fitted for lives of usefulness imitating Him of whom it was said, "Himself took our infirmities and bare our sicknesses."

The graduating exercises took place last evening in the Christian church which was most exquisitely decorated for the occasion. The pulpit and adjacent platforms were beautifully adorned with a variety of flowers and asparagus presenting a lovely appearance. A large and highly appreciative audience had gathered to enjoy the exercises and all was propitious for the occasion.

President Curry was unable to be present owing to pressing business demanding his presence in Chicago so his place was taken by Dr. H. C. Woltman, member of the executive committee.

With rare ability, Miss Alice Mathis, organist of the church, rendered a prelude on the organ, after which Rev. A. A. Todd, D. D., offered an earnest prayer. Mrs. Woltman then delighted the audience with a vocal solo, "Song of Thanksgiving," after which Dr. Woltman said in brief:

Dr. Woltman Presided.

I am truly glad to see so many here tonight for it shows an interest in a grand institution. I have often really wondered if the people of Jacksonville appreciated the value of Passavant hospital to the community. It is a haven of refuge for the sick and afflicted who receive there care and attention impossible elsewhere under the most favorable circumstances. The poor and the needy are favored just as far as possible and a kindly hand is tendered to all.

In addition is the nurses' training school, which is of an inestimable value, for from it go forth to bless the world a class of young ladies so admirably equipped for their duties that sickness is robbed of many of its terrors and recovery is far more speedy and certain than would be possible without them.

A graduate nurse gives herself to the work which is largely emergency. Since the world war has become far more appreciated and understood than ever before and hence the demand is much greater. Jacksonville is ahead in the matter of nursing work though it yet has the opportunity to improve. In many ways it is far ahead of many other places of its size.

Better Day Dawning.

I am encouraged to think that a better day is dawning for Passavant hospital and we who have more or less interested in the welfare of the community than ever before. The institution is worthy of the cordial support of every one in the city and county and we who are so deeply interested in it feel that we shall have better assistance than ever before from the people. I now have the pleasure of introducing Rev. M. L. Pontius who will deliver the address of the occasion.

A short outline of his excellent address is given:

It is a wonderful experience to come up to graduation day. The graduate becomes conscious of the fact that he has received all that an institution can give. He understands that henceforth he is to be a representative of the institution from which he graduated. Henceforth he has not only his own good name to protect, he must now protect and defend the good name of the institution of which he is a part and which he represents.

The fact that these graduates have continued their work these years in Passavant hospital indicates that they have found the place for which nature has prepared them and they have added knowledge, discipline and training to their natural ability.

Doors of Opportunity Open.

Graduation day means extended opportunities. Opportunities that come to each individual who is prepared for his life work. Opportunities that remain before the individual until they are frightened away by the undertaker who comes with his wraith and his piece of crape. To the young person today who has generated his aspirations, acquired ability, and prepared training doors of opportunity will swing open on every side.

Graduation day means the ripening of personality. Personality is not inherited, it is acquired. All the influences that have played upon us since the days of childhood, the study of our minds, the desire of our hearts and the service of our hands forge out for us a personality. On graduation day one becomes conscious of the fact that personality has developed that his service will receive the stamp of the unfolding personality.

Graduation means the building of character. The most priceless thing in a human life is character. Character is the foundation upon which we build everything that is worth while. Character must be developed while one procures his training for his life work if his services are to be acceptable. Success is "being believed in." Character has a large part in determining the value of one's success in any honorable vocation.

The Spirit of Service.

The service of the nurse, like

the work of the physician and minister must not be prompted by commercial, but by the ethical, the humanitarian spirit. A peculiar satisfaction must come to the nurse when she assists in bringing a human being back from the borderline of death to health and strength and to his place in the community.

I congratulate you on your graduation from Passavant hospital. You are proud of your diploma this evening. You will have greater pride as a graduate of this institution in days to come because there are better days coming for Passavant hospital.

A forward step was taken recently when the board decided to employ a business manager. Through co-operation we may cause each patient, each nurse, each constituent of the institution to see over the entrance of the building and over the entrance into every room the words, Christ, Service, Efficiency.

Mrs. Gregory was then introduced and sang a group of songs in the talented and finished manner usual with her. They were, "I Am Thy Harp," "I Hear a Thrush at Eve" and "Birth of Morn."

Dr. Cole Presents Diplomas.

Dr. C. E. Cole, dean of the training school then presented the diplomas saying in brief:

I do not know of any class which has had so many difficulties with which to contend at this one. There have been so many changes in the personnel of the hospital officials that the young ladies have experienced peculiar difficulties in their studies. Yet they have persevered most bravely and have completed their work in a most highly creditable manner. It is indeed a pleasure to me to present them their diplomas at this time.

An earnest prayer and benediction by Rev. W. R. Marbach ended the formal exercises, and then many pressed about the young ladies to tender congratulations. The occasion was graced by the presence of Miss Verner and as many undergraduates as could get away and they too came in for a share of kind words.

Eat with us and enjoy the music Sunday evening.

VISITOR FROM WINCHESTER

Henry Higgins of Winchester was a city visitor yesterday and made the Journal an acceptable call. Mr. Higgins is 84 years old, yet is remarkably well preserved and in full possession of all his faculties. His hearing is perfect and his eyesight all right and he seems good for many years to come.

He first landed in Jacksonville in 1852 and this was his home till 1900 when he removed to the capital of Scott county and has since resided there.

Mr. Higgins has an honorable record as a school teacher tho he hasn't done anything in that line for a long time. His book store in Winchester is profitable and he seems in good spirits. He has reared a family of one son and three daughters, who surely have been a credit to him and will be a prop in his old age if he lives that long that he will need any help. He is a striking example of what good habits, a clean conscience and upright life will do for a man.

He had rather an amusing experience a short time since. An old gentleman entered the store of Mr. Higgins and noticing how spry and active the merchant was remarked that it was well but when the business man became as old as the caller he wouldn't be quite so sprightly, but when they compared ages Mr. Higgins was four years older than his caller.

Although he has been a merchant for a number of years Mr. Higgins' great life work has been

IN THE SCHOOL ROOM.

He began when a youth of seventeen in a humble place in Menard county. He had intended to read law with Lincoln and Herndon with whom he was well acquainted, but failing health made it out of the question.

He gave himself early to his profession and taught with success. He was also superintendent of the schools in Winchester for several years and many in Scott county as well as Morgan are indebted to him for valuable instruction.

HOSPITAL ATTENDANT FINED FOR ASSAULT

Palmer Ford was arrested by Capt. Elliott and the night police force Thursday night on the charge of assault and battery.

Ford is an attendant at Jacksonville State hospital. It is alleged he assaulted a patient, D. R. White the night watchman in the hospital and it is said that Ford also assaulted him.

City and state warrants were sworn out by Dr. E. L. Hill and Mr. White. Ford was arraigned before Justice Dyer Friday and fined \$20 and costs on the charge of assaulting White. Being unable to make payment he was sent to jail.

His hearing on the charge of assault against the patient will be had Monday afternoon at 2 o'clock. Ford says that he was compelled to strike the patient in self defense.
